- Today's appointments at a glance
- Color-coded calendar showing booking density
- Interactive weather forecast visualization
- Live conversation monitoring
- Customer database with search
- Service history tracking
- Navigation with driving directions
- Business settings management

BUSINESS BENEFITS

' Save 15+ Hours Per Week

Automate booking, reminders, and routine customer inquiries to free up your time for actually performing services and growing your business.

' Increase Bookings by 30%

24/7 availability means customers can book anytime. Intelligent conversation flow guides them to successful bookings even when you're unavailable.

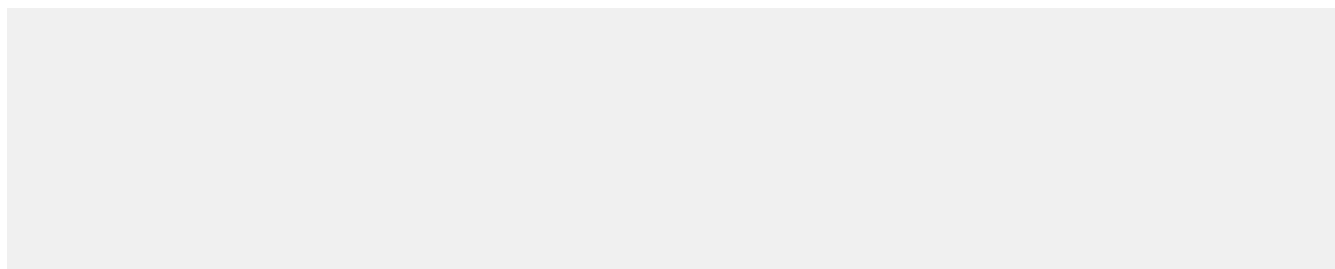

' Enhance Customer Experience

Professional, consistent communication and proactive service updates lead to higher satisfaction, better reviews, and more referrals.

' Reduce No-Shows by 80%

"The AI assistant has completely transformed how I run my detailing business. I've reclaimed my evenings instead of spending hours messaging customers, and my booking rate has never been higher. Automated reminders, weather alerts, and confirmation requests dramatically decrease appointment no-shows and last-minute cancellations.

- John Smith, Professional Detailer
